750 SUBJECT INDEX

- Lifespan psychology (*cont.*)
 intellectual growth during adulthood, 493
 introduction, 472-74
 learning potential activation among older adults, 496-97
 life events, 481
 lifespan changes in relative allocation of resources to developmental goals, 477-79
 limits of plasticity, 481-82
 mechanic/pragmatic interdependence, 494-95
 metatheoretical propositions, 479-82
 methodological propositions, 479-82
 normative knowledge, 492-93
 overall architecture, 474-77
 period effects, 495-96
 person-specific pragmatic knowledge, 492-93
 plasticity and age-associated changes, 480-81
 plasticity in intellectual functioning across historical and ontogenetic time, 495-97
 predicting childhood intelligence on basis of infant behavior, 497
 relative interindividual stability after infancy, 497-98
 relative stability of intellectual functioning across lifespan, 497-98
 selection, 479
 selective adaptation, 479
 selective optimization with compensation, 482-86
 stage conceptions vs functionalist approaches, 493
 structural changes in intellectual abilities, 498-99
 two-component model of lifespan intellectual development, 486-99
 wisdom as knowledge, 493-94
 Linguistic sensitivities
 infant speech processing and, 509-32
 Linkage
 single-gene influences on brain and behavior, 603, 605, 608
 Listening
 infant speech processing and, 520-23
 Local context
 word knowledge and, 14-16
 Logic
 deductive reasoning and, 109-30
 Logical functional analyses
 psychopathology and, 98
 Long-term memory
 survey research and, 550
 Low status
 trust and distrust in organizations, 594
 Low trusters
 trust and distrust in organizations, 584
- M**
- Mail surveys
 survey research and, 540
 Maintenance
 lifespan psychology and, 471-500
 organizational change and development, 373
 Major depression
 psychopathology and, 86, 91
 signal detection theory and, 221-22
Making Diagnosis Meaningful
 psychopathology and, 99-100
 Malleability
 lifespan psychology and, 472, 480-82, 495-97
 Mammals
 neuroethology of spatial learning and, 651-75
 Managed mental health care
 individual psychotherapy and, 441-62
 Manic depression
 single-gene influences on brain and behavior, 604
 "Mapping on" meaning
 infant speech processing and, 509
 Marital Adjustment Test
 intervention for couples and, 168
 Marital conflict

 psychopathology and, 83,
 92

752 SUBJECT INDEX

- Nervous system
 - health psychology and, 137
 - neuroethology of spatial learning and, 651
 - Neural net classifier
 - word knowledge and, 16
 - Neuroethology
 - spatial learning and, 651-75
 - Neurophysiology
 - somesthesia and, 305-24
 - Neuroticism
 - marital conflict and, 57
 - Neutrality
 - trust and distrust in organizations, 586
 - "Noise"
 - trust and distrust in organizations, 583
 - Nomothetic predictions
 - signal detection theory and, 215
 - Nonegocentrism
 - cognitive development and, 29
 - Nonhumans
 - attributional capacities in, 698-701
 - No-opinion response options
 - survey research and, 556-59
 - Normative knowledge
 - lifespan psychology and, 492-93
 - Novelty seeking
 - single-gene influences on brain and behavior, 607
 - Nucifraga* spp.
 - neuroethology of spatial learning and, 654, 661-62
 - Null mutations
 - single-gene influences on brain and behavior, 599, 602-4, 606, 609-10, 614-15
- O**
- Obesity
 - health psychology and, 147-48
 - single-gene influences on brain and behavior, 599, 609, 612-15
 - Object detection paradigms
 - high-level scene perception and, 264-67
 - Object identification
 - high-level scene perception and, 243-68
 - Observable patterns
 - marital conflict and, 50-51
 - "Observer"
 - animal cognition and, 699
 - Obsessive-compulsive disorder (OCD)
 - psychopathology and, 86, 92
 - Offensive behavior
 - single-gene influences on brain and behavior, 619
 - Omnibus satisfaction measures
 - marital conflict and, 58-59
 - Online Mendelian Inheritance in Man (OMIM) database
 - single-gene influences on brain and behavior, 610
 - Ontogeny
 - cognitive development and, 41
 - lifespan psychology and, 471-500
 - Open-class words
 - word knowledge and, 5-6
 - Open-ended questions
 - suggestibility of children's memory and, 425
 - survey research and, 543-44
 - "Operator"
 - animal cognition and, 699
 - Optimization
 - selective
 - with compensation, 471, 482-86
 - Optimizing
 - survey research and, 546-59
 - Organizations
 - change and development
 - analytic framework, 368-79
 - basic metaphors, 367-68, 375-77
 - change agent, 373-74, 381
 - change as genre of organizational analysis, 362-65
 - continuous change, 366, 375-81
 - episodic change, 365-74
 - ideal organizations, 370-71, 379
 - intervention theory, 371-73, 379-80
 - introduction, 362
 - overview, 381-82
 - trust and distrust in barriers to trust, 586-594
 - benefits of trust, 581-86
 - breach of psychological contract, 592-93
 - category-based trust, 577-78
 - choice behavior, 572-74
 - dispositional trust, 575
 - enduring tensions, 574
 - fragility of trust, 593-94
 - history-based trust, 575-76
 - introduction, 570
 - overview, 594-95
 - psychological state, 571-72
 - rational choice, 572-73
 - relational models of trust, 573-74
 - role-based trust, 578
 - rule-based trust, 579-81
 - spontaneous sociability, 583-85
 - technologies that undermine trust, 590-92
 - third parties as conduits of trust, 576-77
 - transaction costs, 582-83
 - unresolved questions, 574
 - voluntary deference, 585-86
- Orientation**
- neuroethology of spatial learning and, 651-75
- Outcomes**
- individual psychotherapy and, 441-62

P

- Pain
 - somesthesia and, 305, 316-24
- Panalaris argus*
 - neuroethology of spatial learning and, 654
- Panic disorder
 - signal detection theory and, 221-22, 227
- Parenthood
 - intervention for couples and, 182
- Participatory events
 - suggestibility of children's memory and, 419
- Parus* spp.
 - neuroethology of spatial learning and, 661-62, 664
- Passerculus sandwichensis*
 - neuroethology of spatial learning and, 654

- Patterns
 - response
 - survey research and, 537-58
- Peer relationships
 - and social competence during early and middle childhood
 - adjustment, 348-54
 - affective and physiological correlates, 350-51
 - behavior, 339-50
 - child behaviors vs peer relationships as potential causes of development and adjustment, 349-50
 - cognitive underpinnings of children's social skills and deficits, 341-43
 - cultural and ethnic similarities, 353-54
 - development, 348-54
 - enduring agendas, 339-48
 - features of peer relationships and linkages with relationship quality and stability, 346-48
 - friendship, 340-41
 - innovative agendas, 349-54
 - introduction, 334-35
 - origins of children's social skills and deficits, 341-43
 - overview, 354-55
 - peer acceptance, 339-40
 - peer rejection, 339-40
 - second generation research agendas (1970s and 1980s), 335-38
 - sex/gender, 351-52
 - socialization of children's social skills and deficits, 343-45
 - taxonomy of peer relationship types, 345-46
 - third generation research agendas (1990s and beyond), 339-48
 - types of peer relationships and relationship features, 345-46
 - Perception
 - infant speech processing and, 509-32
 - Perceptual confirmation
 - interpersonal processes and, 273-97
 - Perceptual schema model
 - high-level scene perception and, 260-61
 - Percieved roughness
 - somesthesia and, 305-24
 - Performance theories
 - deductive reasoning and, 109-30
 - Period effects
 - lifespan psychology and, 495-96
 - Peripheral afferents
 - somesthesia and, 307
 - Peripheral sensory mechanisms
 - somesthesia and, 305-24
 - Periplaneta americana*
 - neuroethology of spatial learning and, 659
 - Perpetual distrust
 - trust and distrust in organizations, 594
 - Personality
 - political tolerance and, 634-35
 - Personality Disorder Examination
 - psychopathology and, 87
 - Personality disorders
 - individual psychotherapy and, 461
 - Personalized knowledge
 - trust and distrust in organizations, 576
 - Person-centered strategy
 - lifespan psychology and, 473
 - Person-specific pragmatic knowledge
 - lifespan psychology and, 492-93
 - Pharmacotherapy
 - individual psychotherapy and, 454-55
 - Phase models
 - individual psychotherapy and, 452
 - Phenotype
 - single-gene influences on brain and behavior, 599, 603-4, 607, 609-11, 613, 615
 - Phonological information
 - infant speech processing and, 509-32
 - Phonotactic information
 - processing
 - infant speech processing and, 518-19
 - Phylogeny
 - animal cognition and, 683-84
 - neuroethology of spatial learning and, 651-75
 - Physical abuse
 - marital conflict and, 49
 - Physical exercise
 - health psychology and, 137, 150
 - Physiological correlates
 - peer relationships and social competence during early and middle childhood, 350-51
 - Piaget's equilibrium theory
 - cognitive development and, 25
 - Plasticity
 - lifespan psychology and, 472, 480-82, 495-97
 - volume
 - neuroethology of spatial learning and, 659
 - Pleiotropy
 - single-gene influences on brain and behavior, 606, 613, 616, 619
 - Political psychology
 - psychological underpinnings of democracy and, 625-48
 - Polls
 - survey research and, 537-59
 - Polygenes
 - single-gene influences on brain and behavior, 613
 - Polymorphisms
 - single-gene influences on brain and behavior, 603, 606-7, 611-12
 - Polysemy
 - word knowledge and, 1, 4, 9-17
 - Positive affect
 - emotion and, 191-206
 - Positive expectations
 - interpersonal processes and, 290-92
 - Positivity offset
 - emotion and, 205
 - Postmaterialism
 - psychological underpinnings of democracy and, 625, 642-43
 - Posttraumatic stress disorder (PTSD)
 - psychopathology and, 93-94
 - Poverty
 - marital conflict and, 67
 - Power
 - interpersonal processes and, 285-87

- Pragmatics
 lifespan psychology and, 491-95
 Precontemplation
 organizational change and development, 373
 Prejudice
 survey research and, 537-58
 Premarital counseling
 intervention for couples and, 165-86
 Pre-paradigm-shift phase
 individual psychotherapy and, 462
 Preschool children
 suggestibility of children's memory and, 419-37
 Presumptive distrust
 trust and distrust in organizations, 594
 Pretense
 cognitive development and, 26, 37-38
 Pretesting
 survey research and, 537-59
 Prevalence rates
 signal detection theory and, 226, 233-35
 Preventive interventions
 adolescent programs, 408
 advocacy, 392-93
 alcohol abuse, 402-4
 antisocial behavior, 394-97
 bisexual males, 410
 child maltreatment, 397-400
 community/prevention principles in health promotion, 400-2
 community readiness, 402-3
 community revitalization in health promotion, 401
 couples, 165-86
 developmental approach, 396-97
 diversity, 390
 drug abuse, 402-4
 ecology, 395-96
 education as primary prevention, 391-92
 empowerment theory, 403-4
 ethnic groups, 410
 health promotion, 400-2
 health promotion/competence promotion across life span, 400
 HIV/AIDS, 406-10
 homosexual males, 410
 intravenous drug user programs, 408-10
 introduction, 388-90
 marital conflict, 60-71
 multilevel prevention efforts, 400-1
 multiple settings, 401
 overview, 410-12
 protection factors, 395-96
 remaining issues, 397
 risk factors, 395-96
 risk-focused prevention, 404
 smoking, 404-6
 social support interventions, 392-93
 tobacco use, 404-6
 underserved populations, 401-2
 violence, 391-400
 violence against women, 391-93
 youth violence, 394-97
 Prime mover
 organizational change and development, 373-74
 Priming model
 high-level scene perception and, 261
 Probabilistic epigenetic model
 infant speech processing and, 528-31
 Probability theory
 signal detection theory and, 215, 217-18, 237
 Problem-resolution goals
 marital conflict and, 69
 Problem-solving behavior
 marital conflict and, 51-52, 56-57, 71
 Processing tactile stimuli
 somesthesia and, 305-24
 Process research
 individual psychotherapy outcome and, 441-62
 interpersonal processes and, 273-97
 Project CALM
 intervention for couples and, 176
 Projection
 of trust
 psychological underpinnings of democracy and, 647-48
 Propositional attitudes
 cognitive development and, 26
 Prorelationship goals
 marital conflict and, 70
 Prosodic information processing
 infant speech processing and, 518-19
 Prototypic positive goals
 marital conflict and, 65
 Proxies
 trust and distrust in organizations, 576
 Psychiatric Research Interview for Substance and Mental Disorders
 psychopathology and, 87
 Psychodynamic supplement to *DSM-IV*, 100
 Psycholinguistics
 word knowledge and, 10, 12
 Psychological abuse
 marital conflict and, 49
 Psychopathology
 anxiety disorders, 91-92
 Bergner and Ossorio's "significant restriction" definition of psychopathology, 101
 categorical-dimensional debate, 96-98
 comorbidity, 93-95
 continuing diagnostic controversies, 96-101
 depressive disorders, 90-92
 diagnostic bias, 95-96
 diagnostic instruments and procedures, 87-88
 diagnostic reliability, 82-83, 85-88
 diagnostic stability, 82, 85-87
 diagnostic validity, 82-83, 88-93
 DSM-III, 85-93
 DSM-III-R, 85-93
 DSM-IV
 aids, 82
 conclusions, 85
 criticisms, 84-85
 field trials, 81-82
 process, 80
 psychodynamic supplement to, 100
 reliability and validity of diagnoses, 82
 sourcebooks, 81
 "theoretically coherent" alternatives to, 98-99
 gender and cultural bias in *DSM-IV*, 84
 ICD-10, 85-93
 introduction, 80
 Making Diagnosis Meaningful, 99-100

Psychopathology (*continued*)
 miscellaneous disorders,
 92-93
 schizophrenic spectrum dis-
 orders, 89-90
 Wakefield's "harmful dys-
 function" definition of
 mental disorder, 100-1
 Psychophysics
 pain
 somesthesia and, 322-24
 Psychosocial factors
 health psychology and,
 137-55
 Psychotherapy
 individual
 process research and,
 441-62
 Punctuated equilibrium
 organizational change and
 development, 367

Q

Quality of relationships
 marital conflict and, 58-59
 peer relationships in child-
 hood and, 338
 Quantification
 deductive reasoning and,
 123-26
 information value and,
 215-39
 Quantitative trait loci
 single-gene influences on
 brain and behavior, 599,
 604-7
 Quantity of relationships
 peer relationships in child-
 hood and, 338
 Questionnaire design
 survey research and,
 543-59

R

Randomized clinical trials
 individual psychotherapy
 and, 449-51, 462
 Random mutations
 single-gene influences on
 brain and behavior, 603
 Rapid eye movement (REM)
 latency
 signal detection theory and,
 236
 Rating-scale points
 labeling of
 survey research and, 537,
 544

Rational choice
 trust and distrust in organi-
 zations, 572-73
 Rationality
 deductive reasoning and,
 111-13
 Readiness
 community
 preventive interventions
 and, 402-3
 Reasoning
 animal cognition and, 683
 deductive, 109-30
 Rebalancing
 organizational change and
 development, 381
 Receiver (relative operating
 characteristic (ROC)
 analysis
 signal detection theory and,
 215, 229-37
 Reciprocity
 psychological underpin-
 nings of democracy and,
 625
 trust and distrust in organi-
 zations, 575, 577, 581
 Recognition
 infant speech processing
 and, 514-15, 521-22
 Recognition vocabulary
 word knowledge and, 3
 Recombination probability
 single-gene influences on
 brain and behavior, 604-5
 Reductionism
 single-gene influences on
 brain and behavior, 599,
 616-17
 Reduction of uncertainty
 signal detection theory and,
 217
 Referential value
 word knowledge and, 4-6,
 11
 Refreezing patterns
 organizational change and
 development, 372, 379
 Regularities
 lifespan psychology and,
 472
 Regulation
 behavioral
 lifespan psychology and,
 471-500
 Reinforcement-based disor-
 ders
 psychopathology and, 98
 Rejection
 peer relationships in child-
 hood and, 339-40

Relapse
 organizational change and
 development, 373
 Relational lexical semantics
 word knowledge and, 6
 Relational models
 of trust
 trust and distrust in or-
 ganizations, 573-74
 Relations
 reasoning about
 deductive reasoning and,
 122-23
 Relationship-enhancement
 goals
 marital conflict and, 69
 Relativity
 of emotion, 196-98
 Reliability
 diagnostic
 psychopathology and,
 82-83, 85-88
 Relief
 marital conflict and, 65
 Reorganization
 infant speech processing
 and, 509-32
 Repetition
 suggestibility of children's
 memory and, 425-27
 Representation
 scene
 high-level scene percep-
 tion and, 243-68
 Resource allocation
 lifespan psychology and,
 477-79
 Response bias
 high-level scene perception
 and, 265-67
 survey research and, 537,
 545-46
 Response order effects
 survey research and,
 549-52
 Response rates
 low
 survey research and,
 537-58
 Response repertoire
 organizational change and
 development, 376-77
 Retaliatory goals
 marital conflict and, 70
 Reversal effects
 marital conflict and, 52-54,
 70
 Reverse transcription
 single-gene influences
 on brain and behavior,
 602

756 SUBJECT INDEX

- Revitalization
 - community
 - preventive interventions
 - and, 401
- Rhythm
 - infant speech processing
 - and, 518
 - work
 - organizational change and development, 361, 365-66
- Rigid interviewing
 - survey research and, 542-43
- Risk-focused prevention
 - preventive interventions
 - and, 404
- Risk management
 - trust and distrust in organizations, 579-80
- Role-based trust
 - trust and distrust in organizations, 578
- "Roll over" of expectations
 - trust and distrust in organizations, 577
- Rotter's Interpersonal Trust Scale
 - trust and distrust in organizations, 584
- Rule-based trust
 - trust and distrust in organizations, 579-81
- Rules of inference
 - deductive reasoning and, 109-30
- S**
 - Saccades
 - high-level scene perception
 - and, 243-68
 - Saccharomyces cerevisiae*
 - single-gene influences on brain and behavior, 601-2
 - Sadness
 - marital conflict and, 50
 - Sampling effects
 - intervention for couples
 - and, 184
 - Satisfaction
 - psychological underpinnings of democracy and, 641-42
 - Satisficing
 - survey research and, 546-59
 - Scale
 - organizational change and development, 378
 - Scale labeling
 - survey research and, 537-58
 - Scene identification
 - high-level scene perception
 - and, 243-68
 - Scene perception
 - high-level, 243-68
 - Schedule for Nonadaptive and Adaptive Personality
 - psychopathology and, 97
 - Schizophrenia
 - single-gene influences on brain and behavior, 604, 608
 - Schizophreniform spectrum disorders
 - psychopathology and, 79, 89-90
 - Scientific terminology
 - word knowledge and, 11
 - Screening
 - for diseases
 - health psychology and, 153-54
 - Second-hand knowledge
 - trust and distrust in organizations, 576
 - Selection
 - deductive reasoning and, 127-28
 - intervention for couples
 - and, 184
 - signal detection theory and, 226
 - Selective adaptation
 - lifespan psychology and, 471, 479
 - Selective optimization
 - with compensation
 - lifespan psychology and, 482-86
 - Self-awareness
 - cognitive development and, 39
 - Self-fulfilling prophecies
 - interpersonal processes and, 273-97
 - Self-processes
 - marital conflict and, 57-58
 - Self-protective goals
 - marital conflict and, 69
 - Self-recognition
 - mirror
 - animal cognition and, 683, 693-98
 - Self-reporting
 - marital conflict and, 60
 - Semantic atoms/molecules
 - word knowledge and, 6
 - Semantics
 - lexical
 - word knowledge and, 1-8
 - mental model-based
 - deductive reasoning and, 115-18
 - Sense identification
 - word knowledge and, 1
 - Sensitivity
 - signal detection theory and, 229
 - somesthesia and, 305-24
 - Sensory fibers
 - somesthesia and, 305, 318-20
 - Sentential semantics
 - word knowledge and, 3-5, 118-19
 - Sentiment override
 - marital conflict and, 58-59
 - "Serious mental illness"
 - individual psychotherapy
 - and, 461
 - Sex/gender issues
 - peer relationships and social competence during early and middle childhood, 351-52
 - Sexual abuse
 - preventive interventions
 - and, 387, 397-400
 - suggestibility of children's memory and, 420, 422-24, 428-29, 435-36
 - Sexual disorders
 - intervention for couples
 - and, 175-76
 - Shared common knowledge
 - trust and distrust in organizations, 581
 - Shared resource pool
 - trust and distrust in organizations, 583-84
 - Short-term memory
 - survey research and, 550
 - Signal detection theory
 - applications, 235-36
 - background, 226, 229
 - base rates, 222-25
 - common metric for information value, 225-26
 - conditional probabilities, 218-22
 - cutoff values, 233-35
 - cutting scores, 222-25
 - fundamentals revisited, 216-26
 - future research, 237-39
 - inverse probabilities, 222-25

Signal detection theory
(continued)
 measuring measures,
 226-39
 overview, 229-33
 prevalence, 233-35
 probability theory, 217-18
 "Significant restriction" definition
 of psychopathology, 101
 Simulation theory
 cognitive development and,
 26
 Single-gene influences
 on brain and behavior
 allele association studies,
 607-9
 behavioral testing, 617-19
 chromosome mapping,
 603-4
 databases of genetic information,
 609-11
 gene discovery, 601-11
 gene function, 611-17
 genetic dissection, 612-16
 Human Genome Project,
 601-2
 interactions with test
 situation and environment,
 617-18
 introduction, 600-1
 linkage, 603
 natural polymorphisms,
 611-12
 overview, 619-20
 quantitative trait loci,
 604-7
 systems of genes, 616-17
 targeted mutations, 602-3
 test standardization,
 618-19
 validity of animal models,
 619
 World Wide Web, 609-11
 Situational context
 word knowledge and, 14, 16
 Skin cancer prevention
 health psychology and, 152
 Sleep
 single-gene influences on
 brain and behavior, 606
 Sociability
 spontaneous
 trust and distrust in organizations,
 583-85
 Social capital
 psychological underpinnings of democracy and,
 625-48
 trust and distrust in organizations,
 569, 582-83

Social cognition
 cognitive development and,
 21-42
 Social competence
 peer relationships during
 early and middle childhood,
 333-55
 Social desirability response
 bias
 survey research and, 537,
 545-46
 Social interaction
 interpersonal processes and,
 273-97
 survey research and,
 537-59
 Social interventions
 overview, 387-412
 Social psychological research
 marital conflict and, 56-58
 Social referencing
 cognitive development and,
 30
 Social support
 marital conflict and, 56
 Societal functioning
 trust and distrust in organizations,
 581-82, 589
 Somesthesia
 aging, 313
 attention, 311
 central neurochemical effects,
 321-22
 communication, 310-11
 complex patterns, 309-10
 cortical mechanisms,
 312-13
 gate-control theory, 317-18
 haptics, 314-16
 higher neural organization,
 320-21
 introduction, 306
 kinesthesia, 314-16
 mechanoreception, 307
 pain, 316-24
 pain psychophysics,
 322-24
 peripheral afferents, 307
 sensory fibers, 318-20
 spatial patterns, 307-11
 spatial sensitivity, 307-8
 temporal patterns, 307-11
 texture, 308-9
 thermal sensitivity and,
 313-14
 Spatial learning
 neuroethology of
 animal navigation, 653-57
 brain regions associated

with spatial learning,
 657-60
 case studies, 660-70
 food storing and avian
 hippocampus, 660-65
 hippocampus, 658,
 660-65
 homing, 665-70
 insects, 665-70
 introduction, 652-53
 mushroom bodies,
 658-59, 665-70
 nature of spatial learning,
 655-57
 overview, 670-75
 volume analysis, 659
 volume plasticity, 659
 Spatial sensitivity
 somesthesia and, 305, 307-8
 Spatial-temporal patterns
 somesthesia and, 307-11
 Speaking vocabulary
 word knowledge and, 3
 Specific questions
 suggestibility of children's
 memory and, 425-26
 Specificity
 marital conflict and, 65
 signal detection theory and,
 229
 Speech processing
 infant
 age-related changes in linguistic/perceptual competence,
 519-20
 babbling, 523-24
 bimodal speech perception,
 517-18
 consonants, 511-17
 cross-language consonant
 and vowel perception,
 515-17
 ecological models, 525-26
 evolution, 527-28
 experience and infant
 speech perception,
 514-20
 induction, 527-28
 introduction, 510-11
 linguistic sensitivities,
 511-14
 listening for words,
 520-23
 nativist models, 525-26
 overview, 531-32
 phonotactic information
 processing, 518-19
 probabilistic epigenetic
 model, 528-31
 production of words,
 524-25

- Speech processing (*cont.*)
 prosodic information processing, 518-19
 recognizing one's native language, 514-15
 recognizing word forms, 521-22
 syntactic information in speech, 513
 syntactic information processing, 518-19
 vocal production, 523-25
 vowels, 511-17
 word-learning, 520-23
 word-object associative learning, 522-23
- Spontaneous sociability
 trust and distrust in organizations, 583-85
- Spouses
 marital conflict and, 47-72
- Stability

 deductive reasoning and, 128-30

Systems-oriented theory
single-gene influences on
brain and behavior, 599,
617

T

Tactile patterns
somesthesia and, 305-24
Targeted mutations
single-gene influences on
brain and behavior, 599,
602-3, 614
Taxonomy
neuroethology of spatial
learning and, 651-75
of peer relationship types
in early and middle child-
hood, 345-46
Teasing
cognitive development and,
30
Technologies
role of in undermining trust,
trust and distrust in or-
ganizations, 590-92
Teleological theories
organizational change and
development, 364-65
Telephone interviews
survey research and, 540,
543
Temperament and Character
Inventory
psychopathology and, 83
Tempo of change
organizational change and
development, 361-65
Temporal patterns
somesthesia and, 307-11
Temporal range
marital conflict and, 65
Tension
trust and distrust in organi-
zations, 574
Test-operate-exit cycles
marital conflict and, 63
Texture perception
somesthesia and, 305, 308-9
"Theoretically coherent" al-
ternatives to DSM-IV
psychopathology and, 98-99
Theory of body mechanism
cognitive development and,
25
Theory of mind mechanism
animal cognition and, 683,
693, 698, 701
cognitive development and,
21, 25-37

"Theory" theory
cognitive development and,
24, 25, 26
Therapeutic alliance
individual psychotherapy
and, 448-49
Thermal sensitivity
somesthesia and, 305,
313-14
Thesaurus
word knowledge and, 10
Thinking
cognitive development and,
38-39
deductive reasoning and,
109-30
suggestibility of children's
memory and, 429
Third parties
as conduits of trust
trust and distrust in or-
ganizations, 576-77
Thought editing
marital conflict and, 52
Threat
psychological underpin-
nings of democracy and,
625-48
Time intervals
high-level scene perception
and, 243-68
"Tit-for-tat" reciprocity
marital conflict and, 62
Tobacco use
health psychology and, 137,
150-52
organizational change and
development, 373
preventive interventions
and, 404-6
Tolerance
political
psychological underpin-
nings of democracy and,
625-48
Tool use
animal cognition and,
690-93
Topical context
word knowledge and, 14-16
Touch
somesthesia and, 305,
307-13
suggestibility of children's
memory and, 419
Transaction costs
trust and distrust in organi-
zations, 582-83
Transformation
organizational change and
development, 361-82

Transformations of motiva-
tion rules
marital conflict and, 69
Transforming trust
trust and distrust in organi-
zations, 579
Transgenerational variant
of depersonalized trust
trust and distrust in or-
ganizations, 580
Translation
organizational change and
development, 375-77
Treatment matching studies
individual psychotherapy
and, 460-61
Tripartite personality trait
model
psychopathology and, 79,
91-93
Tropynomy
word knowledge and, 7, 9
"True" imitation
animal cognition and, 701
Truncated age range
suggestibility of children's
memory and, 419
Trust
interpersonal
psychological underpin-
nings of democracy and,
625-48
organizations and, 569-95
Twin studies
psychopathology and, 90
single-gene influences on
brain and behavior, 619
Two-component model of
lifespan intellectual devel-
opment
lifespan psychology and,
486-99

U

Uncertainty
signal detection theory and,
217
trust and distrust in organi-
zations, 583
Underserved populations
preventive interventions
and, 401-2
Unfreeze-transition-refreeze
sequence
organizational change and
development, 361, 372-73
Unrealistic scenarios
suggestibility of children's
memory and, 419
